01 PROFILE

Prague-based junior frontend developer with a Czech IT Maturita completed in 2024. I build and deploy responsive interfaces with Next.js, React, TypeScript and JavaScript, with attention to accessibility, performance and clear loading, error and success states.

02 SELECTED FRONTEND WORK

- P.01

Rehabilitation Center, Almaty

Information architecture and frontend implementation

Multi-page healthcare demo structured around treatment programs, doctors, documents, FAQ, pricing and clear enquiry paths.

NEXT.JS / TYPESCRIPT / TAILWIND CSS / SEO / ROUTING

LIVE DEMO
- P.02

Barbershop Iron & Steel

UI design and frontend implementation

Responsive booking-focused landing page with a clear hierarchy for services, barbers, pricing and repeated reservation actions.

NEXT.JS / REACT / TAILWIND CSS

LIVE DEMO
- P.03

BETZ Sportsbook

Data-dense frontend interface

Responsive sports interface that groups matches, events and live odds for quick scanning across desktop and mobile screens.

NEXT.JS / REACT / RESPONSIVE DATA UI

LIVE DEMO
- P.04

SecretTravel

Responsive frontend and multilingual content structure

RU / EN travel-concierge demo that organizes hotels, flights, excursions, pricing and enquiries into a clear responsive flow.

NEXT.JS / TYPESCRIPT / TAILWIND CSS / MULTILINGUAL UI

LIVE DEMO
- P.05

Vakalova Dental

UI design and frontend implementation

Calm dental-clinic interface with readable service sections, doctor profiles and a prominent appointment path.

NEXT.JS / TYPESCRIPT / RESPONSIVE UI

LIVE DEMO
